

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on market index data for the period 1 July 2013 to 28 February 2017 and actual returns for the period 1 March 2018 to 30 June 2018. As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.
